

# SPB AEROSOL ADHESIVE

ClassicBond SPB Aerosol Adhesive can dramatically reduce the overall time spent both on application & waiting for flash off, resulting in jobs coming in under time & less chance of the elements interfering as a result.

SPB Aerosol Adhesive is a high-strength adhesive, specially formulated for bonding of ClassicBond membranes to a variety of substrates.

## INTENDED USE

SPB Aerosol Adhesive is designed as an alternative to brushable ClassicBond Bonding Adhesive. It will adhere membrane to a variety of substrates & provides unrivalled bond strength.

## FEATURES & BENEFITS

- Spray applied high-strength adhesive that allows quick bonding. Cleaner, simpler application
- Up to 6 times faster application than traditional Bonding Adhesive
- Up to 4 times faster drying than traditional Bonding Adhesive
- Far greater operational window than traditional Bonding Adhesive
- Accurate application
- Zero wastage
- Up to 3m<sup>2</sup> fully bonded per can

## APPLICATION\*

1. Ensure all surfaces are clean, dry and free from contamination.
2. Hold aerosol can 100-150mm from surface to be coated and depress nozzle. Apply to both membrane and roof substrate.
3. Ensure the adhesive is dry to the touch, allow a minimum of 4 minutes to maximum 30 minutes.
4. Bring the surfaces into contact and consolidate the bond with a 50mm hand-roller.
5. Replace lid to prevent accidental discharge. Periodically the nozzle will require cleaning. Simply pressing nozzle into an area of dry adhesive will clear nozzle.

# SRAYABLE BONDING AEROSOL ADHESIVE

## PRECAUTIONS

1. SPB Adhesive is **EXTREMELY FLAMMABLE** - It contains solvents that are dangerous fire and explosion hazards when exposed to heat, flame or sparks. Store and use away from all sources of heat, flame or sparks. Do not smoke while applying. Do not use in a confined or unventilated area. Vapours are heavier than air and may travel along ground to a distant ignition source and flash back.
2. Harmful by inhalation. Inhalation may cause nausea & vomiting. May cause dizziness & headache. Move exposed person to fresh air. Seek medical attention.
3. Harmful if swallowed. Ingestion may cause nausea & vomiting. Ingestion is irritating to the respiratory tract & may cause damage to the central nervous system. **DO NOT INDUCE VOMITING.** If swallowed, seek medical advice immediately & show container or label.
4. Avoid contact with eyes. Safety glasses or goggles are recommended. If splashed in eyes, immediately flush eyes with plenty of clean water for at least 15 minutes holding the eyelids open. Seek medical attention.
5. May cause irritation to skin. May cause dermatitis. Wash off immediately with plenty of soap & water. Remove contaminated clothing. Seek medical attention if irritation or symptoms persist.
6. Storage temperatures in excess of 25°C may affect product shelf life. Should the Bonding Adhesive be stored at temperatures below 15°C restore to room temperature prior to use.
7. Coverage rates are average and may vary due to conditions on site.
8. **KEEP OUT OF THE REACH OF CHILDREN.**

**Before using this product please ensure that you have been supplied with and have read carefully the following information:**

1. The product labels
2. ClassicBond SPB Aerosol Safety Data Sheet

## PROPERTIES AND CHARACTERISTICS

- Appearance: Green
- Description: Aqueous Solution
- Temperature Resistance: -30°C - 85°C
- Application Temperature: 5°C - 30°C
- Storage: 5°C - 25°C
- Coverage: Up to 3m<sup>2</sup>
- Packaging: 500ml can
- Environmental: Solvent/Flammable/Hazardous
- Shelf Life: 1 year
