

## **EJOT** Self-tapping Concrete Anchor

**DDS 7.3 x L**

**For - Mechanical fixing of insulation and acoustic boards**

**Onto - Concrete**

### **Features**

- Ideal for fixing insulation systems to ceilings.
- Integral plastic washer and steel anchor.
- High performance.
- Plastic moulding – UV stabilised.
- 25mm Washer diameter.
- Patterned washer face – accepts surface coats.
- Head available in white and beige.
- Steel anchor – no relaxation.
- Fast and simple installation.
- Only 20 mm embedment – reduced impact on reinforcement.
- No expansion – favourable with pre-stressed concrete beams.
- Wide range of lengths from: 50, 75 – 200mm.

### **Application Detail**

- Hole diameter: 6mm
- Embedment: 20mm
- Hole depth: 30mm
- Drive: TORX® T30

### **Expected Pull-out Value**

In the region of 3kN from concrete.

**We recommend confirmation by on-site testing.**
